Cross Country Computer consistently exceeds expectations on all fronts; from the dedicated staff to the state-of-the art software capabilities.

The USST client continues to be dazzled by the aggressive turnaround time & the accuracy of the work on all levels that CCC provides to them for each & every campaign.

USST has used CCC as its data processing vendor since 2006 and is always impressed with the accuracy and quality of service. CCC meets or exceeds standards and has very strict business rules in place with regards to internal QC. CCC's software programs are second to none & continue to be updated & upgraded as needed.

The staff on this account are Deirdre Thompson as the day-to-day & Dave Love in the background and internal QC. Deirdre & Dave question each & every job, to make sure that the merge parameters are exactly what the Client requested and to make sure each job is processed correctly the first time.

Deirdre & Dave have saved USST a considerable amount of time & money with their expertise & attention to detail.

I would highly recommend CCC as a Vendor to partner with. I look forward to working with the exceptional staff at CCC in the very near future.

Sincerely yours,
